

▶ Application

DDJ1, DDZ1 electromagnetic vibratory electric flute used in the mining industry companies, power stations and squares, issued a clean sound signal.

The electric flute electromagnet vibration conversion audible as diaphragm, the AC electromagnet flute vibration is generated by 50HZ or 60HZ AC power. DC vibration flute in electromagnet in an electromagnetic system attached replacer obtained.

Electric flute by the electromagnetic mechanism, lance and diaphragms mounted in aluminum housing structure, housing has a waterproof performance.

▶ Main Technical Data

Type	Power Type	Rated Voltage V	Sound level at 1meter is at least:	Power W	Continuous time (mins)
DDJ1	AC 50Hz or 60Hz	12.24.36.48.110.127.220.380	90	40W	5
DDZ1	DC	24.48.110.220	90	20W	5
